Need More Printing Space?

ScriptChek® has it!

(Up to 3X More Space!)

ScriptChek® Patented, One-Piece, Extended Tab Prescription Drug Label designed to work seamlessly with most pharmacy operating systems with only print routine modifications. Whether your printing Laser, Simplex or Duplex, Thermal or Robotics, ScriptChek® labels print just as fast and accurate as your current label. Choose one of our designs or let us help you customize your next label to help fit your pharmacy needs.

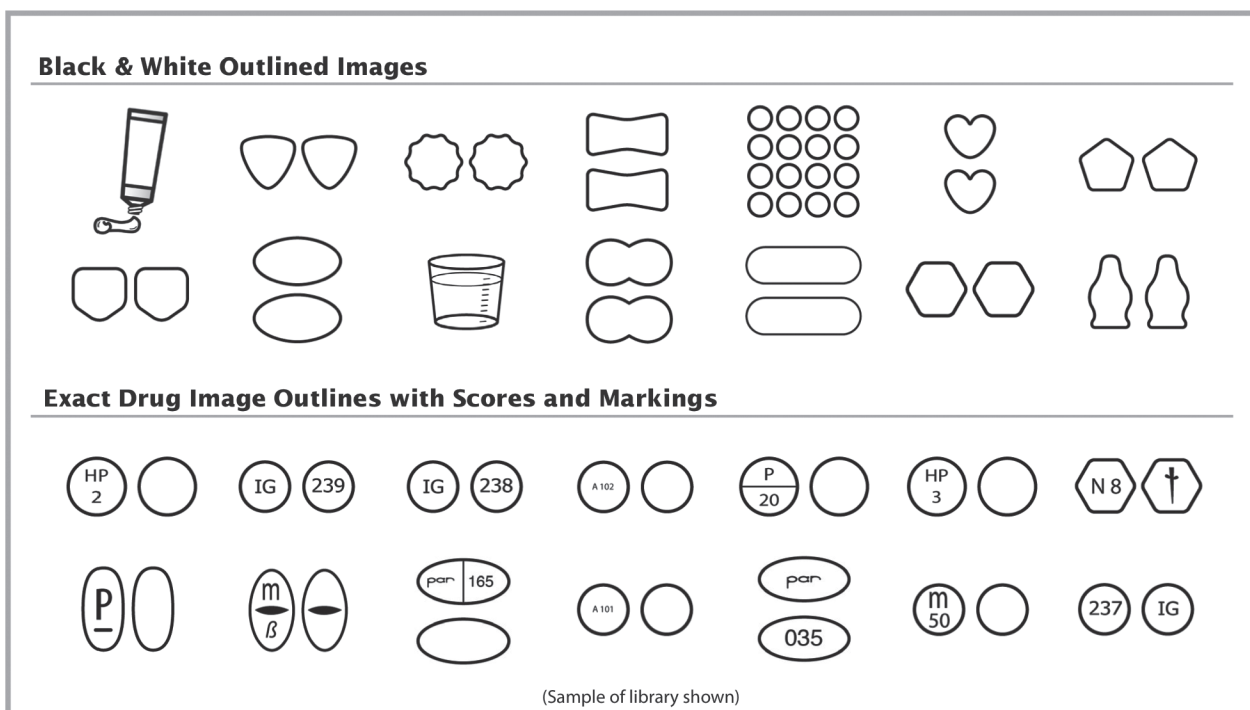

Imagine the Possibilities for Your Pharmacy...
Imagine The Benefits For Your Customers...

ScriptChek® Printable “2D” Drug Image Database

Features 64 black & white drug shape outlines that cover over 28,000 drugs including tablets, capsules, lotions, suspensions, liquids, creams, and more. Exact drug image outlines with scores and markings for the Top 1,000 drugs being used today. The addition of the pill image to our ScriptChek® label and/or the patient leaflet will enhance both the pharmacists and patients drug identification for visual verification.

- Accurate, high quality drug outline images designed for label and patient leaflet printing
- Precise markings and scores on pills
- Updated images on a regular basis via internet or disk copy
- Database resides outside of system and can be interfaced into most pharmacy software systems
- Database is available in a variety of delimited formats
- Images are provided in a variety of graphic formats, i.e. JPEG, TIFF, PDF, etc.
