

ScriptChek®

The Total Prescription Solution

ScriptChek®

"3 Part" Total Prescription Packaging Solution...

Part 1: Patented Extended Label Design

Allows up to 4x more printing space for increased prescription drug content and information. This unique, easy to implement label design works with most pharmacy operating systems and requires just minor label formatting routines.

Part 2: Patented "D" Shape Bottle

Offers greater label surface area with three flat sides for patient writing interactions along with ScriptStrip™ for guaranteed label placement.

Part 3: Printable "2D" Drug Image Database

Features 44 drug shape outlines that cover over 28,000 drugs including tablets, capsules, lotions, suspensions, liquids, creams, and more. In addition, we have exact drug images with scores and markings for the Top 1,000 drugs being used today. The addition of the pill image to our ScriptChek® label will enhance both the pharmacist's and patient's drug identification for visual verification.

Imagine the Possibilities!

- 1 Patient Information
- 2 Patient Warnings
- 3 Pharmacy or Manufacturer Promotions
- 4 Outline of Medicine
- 5 Description of Medicine & Markings
- 6 Easy to Read & Detailed Drug Safety Information
- 7 Patient Info Tab
